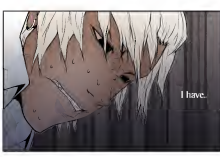
The Second Box (1)

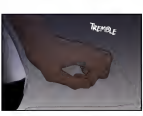
I have...



I have never once in my life, ever, knelt down to someone...

Even though I have done this...

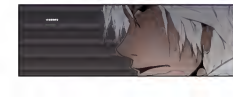
Even though I am apologizing like you said...



What the hell is he trying to do..? Is he trying to get back at us for every single humiliation we gave him back then?

GET YOUR SHIT TOGETHER!!! WHY THE FUCK ARE WE PROVOKING OURSELVES??
OH, JOO-HWAN!
SCREW THIS! I SHOULD'VE KNOWN, IT'S MUCH BETTER JUST DOING IT MY WAY!

He disappeared?



Even if I was tired to the point that I was not fully aware,

How could I not figure it out then..

That logically, it could have not been physically possible to disappear within such a short period time...

That the meaning of 'you will be freed once you feel truly sorry.' was exactly that...

Always... he stayed on that spot...

Also the fact that the wires were arranged there...

He was there even when we were looking for the exit at the beginning...
